FOOD FOR THOUGHT

"It's unwise to pay too much, but it's worse to pay too little. When you pay too much, you lose a little money — that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot — it can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run, and if you do that you will have enough to pay for something better."

—John Ruskin
(1819-1900)

DRACAENA GRACILIS

One of the finest and most decorative, modern type plants that we have had the pleasure of introducing to the florist trade. The unique and artistic habit of the stems lend themselves to modern interiors. This plant was introduced into this country many years ago by the Spanish at the southern-most city of the United States — Key West.

Not until recently have we had sufficient stock to

POTTING MATERIALS

Although OSMUNDA is still a desirable medium for orchid culture, Fir Bark and Tree Fern have gained wide popularity as potting media in recent years—especially for certain genera under certain climatic conditions. Either one is easier to use than Osmunda, so potting is quickly accomplished, which accounts considerably for their wide-spread use.

VITA-BARK Obtained by a superior stripping process, this fir bark has the lowest wood content. The material holds up longer, therefore, so plants need to be disturbed less frequently.

VITA-BARK Prices

2-cubic-foot bags

1 to 4 bags	-----	\$4.95 each
5 to 9 bags	-----	4.25 each
10 to 24 bags	-----	4.00 each

QUANTITY PRICES ON REQUEST

Bags weigh about 40# each—the smaller the size, the heavier the bag. Freight charges—rail or truck—are based on a 100# minimum. Suggest you order at least three bags when buying.

RECOMMENDED USAGE

1 1/2" x 3/4" size	for 8" pots, or larger
3/4" x 1/4" size	for 7"-8" pots
5/8" x 1/4" size	for 4"-6" pots
1/2" x 1/4" size	for 2 1/2"-3" pots
1/4" x 1/8" size	for small seedlings

Moisten before using for ease of handling and better water absorption after potting. If switching from Osmunda to VITA-BARK, be sure to remove ALL osmunda from orchid roots, taking care not to damage them. If RE-potting in VITA BARK, shake away ALL the old bark first.

OSMUNDA FIBER (Depending on moisture content, approx. 40#) **Bale \$12**
 Enough for 10-12 5" pots. (1/4 bbl. paper bag) **Hobby Bag \$2.50**

We continue to have good quality Osmunda gathered from the Everglades. Quality Osmunda, if this is the medium you prefer, is necessary to grow Quality plants. We can ship the best grade of Florida Osmunda in lots of one or more bales.

- Medium-Coarse** (finest grade) For seedlings in small sizes.
- Coarse** For older seedlings and mature plants in 3"-7" pots.
- Little Chunks** For large plants which will tolerate the presence of more moisture in the container.
- Chunks and L. C.** } Often used for such as Vanda, Angraecum, Arachnis—plants which can remain in the same container for many years.

(Minimum freight charges—rail or truck—are based on 100#.)

CLAY POTS

We have been distributors for the same Georgia Pottery for a number of years because the porous pots it manufactures are conducive to good culture. We try to keep all sizes and depths—both Orchid and Plain—on hand. We can arrange for truckload shipments direct from the pottery; lesser quantities MUST be picked up at our range.

CONDITIONS OF SALE

1. Orders are filled in rotation — usually the same day or the one following receipt. Advise if your order is urgently needed — we will expedite it to the best of our ability.
2. Prices quoted are F.O.B. Miami.
3. We do NOT make a packing charge except for crating of some large specimens.
4. **TERMS:** Cash with order unless credit has been previously established. To establish a 30-day charge account, please provide three credit references, one to be your bank.
5. **Florida residents:** add 3% sales tax on supplies unless we have your Sales Tax Number on file.
6. **SHIPPING:** It is our general practice to make shipments by Railway Express. However, if there is a more economical or more satisfactory service to your area via Truck Line or Air Route, we use these facilities. If you have a preference, please indicate.
7. When ordering supplies or plants which are to be shipped via Parcel Post, please include sufficient funds with your remittance to cover postage — any overage will be refunded. We cannot assume responsibility for losses when plants are shipped via Parcel Post.
8. **CLAIMS:** Notify Carrier immediately for inspection of damage. All shipments turned over to a public carrier become YOUR property; claims for losses must be filed immediately with the **CARRIER** — NOT with our firm. We are always glad to provide pertinent information so that your claim will be honored. (Inspector will want to see all packing.)
9. Plant heights and lengths quoted are approximate.
10. Prices are subject to change without notice and this catalog cancels all previous quotations. We reserve the right to limit quantities and to withdraw any offering from sale at any time.
11. **NON-WARRANTY:** We, Jones & Scully, Inc., give no warranty—expressed or implied—as to the productiveness of any of the plants we sell, and will not be responsible in any way for the crop. Our liability, in all instances, is limited to the purchase price of these plants.
